Jean Monnet, the founding father of the European Community
In the late 1990s, the issue of European Union reorganization caused a stir across Europe. Paul-Henri Spaak, a Belgian statesman, claimed that the EU headquarters should not be established in any powerful nation for political reasons and set up the EU headquarters in Brussels, winning over Germany, France and England. Most Belgians believe that the establishment of the EU headquarters will bring vitality to the economy with the influx of capital and grant the country a greater say in politics among European nations.
“The Association of Southeast Asian Nations, Japan, China, Korea and Taiwan, all together account for 25% of the international economy. The foundation for establishing an Economic Community is already prepared.”

Former Japanese Prime Minister Hatoyama Yukio

1. The Background and Purpose of Holing the Forum

1) The Purpose of Holding the AECF

From the social point of view
The Surge of Asia in the 21st Century
With the surge of China, finding Korea’s own way between Japan and China to stimulate the national economy and promoting the active participation of America and Japan have led to the Asian Davos Forum, which benchmarked the Boao Forum for Asia (BFA) in China and the Davos Forum in Switzerland.

From the economic point of view
Formation of the Asia Economic Community has become essential as a long-term countermeasure to address the global trends of regionalism and block formation
As a pioneer leading the Asia Economic Community, Korea will play a pivotal role and become a center of Asian regional integration, proposing solutions and future directions through in-depth study of Asia and world economic trends.

From the political point of view
Lay a foundation to develop Incheon from the hub of Northeast Asia to the hub of Asia as a whole by holding the 2010 G20 Summit related meeting in Songdo, the 2014 Asian Games and Global Fair and Festival 2009.
Hold the Forum on a regular basis in order to raise the status of Incheon, a distribution and business center with Incheon International Airport and the Free Economic Zone of Northeast Asia. Rebrand Incheon as the ‘Brussels’ of Asia by establishing the headquarters of Asia Economic Community in the city.

We held the 1st International Conference in November 2001 with the support of Incheon Metropolitan City, celebrating the opening of Incheon International Airport and adopted “Incheon Declaration 2001” to realize the Northeast Asian Community.

2. The Emblem

As Jean Monnet, father of the European Union, said that the union should be the integration not of nations but of peoples, this emblem expresses the configuration of 10 people, symbolizing “So many people, so many minds,” gathered hand in hand surrounding a round table symbolizing equality.

Five traditional colors of Korea (yellow, blue, white, red and black) express five regional varieties of Asia (North East Asia, South East Asia, Central Asia, South Asia and West Asia) while integrating all Asia as one.

The configuration of 10 people, symbolizing “So many people, so many minds,” gathered hand in hand surrounding a round table symbolizing equality signifies that a variety of Asians gather to cooperate for the peace and future of Asia.
